solitwork

Business Analyst BI (w/m/d)
SaaS Solutions

About us

Solitwork delivers next generation Digital Finance solutions. With unparalleled technology and highly competent consultants, we are changing the way our customers work with data.

We automate time-consuming and complex processes and enable better data-driven decisions.

Our intuitive self-service data platform lets the client gather all his data and processes around analytics, consolidation, budgeting and advanced analytics in a single solution. Easy, efficient and powered by leading technologies and tools from Microsoft.

Since 2002, we have been supporting many of the most data ambitious companies in Denmark and have done so since 2002.

In January 2022, we established our first international subsidiary in Hamburg, Germany. Our German Team includes a number of dedicated shipping professionals, whose clear focus is to deliver innovative data driven solutions to the maritime industry.

The job

With your knowledge you will efficiently implement innovative and professional solutions for customers to simplify, optimize and control different parts of their business structures.

Your daily work is focusing on data analysis, which is why a deep professional knowledge and technical understanding is very important.

You act as a link between the in-house development and the customers. Depending on the complexity, you will implement the customer requirements yourself or with the support of our experienced development team in Denmark.

You are the first contact person for your customers and are responsible for customer satisfaction.

What you bring

- You bring practical experience in (multi-)dimensional data modeling

- You have methodical knowledge of data integration processes. You have already processed data structures from databases, ERP, CRM and other operational systems or other APIs

- Ideally, you will bring experience in one or more data visualization tools such as Microsoft Power BI

- You have excellent analytical skills and a pragmatic way of working

- You have a friendly, outgoing demeanor and possess strong communication, collaboration and team work skills

- You like challenges and can actively communicate and use your strong numerical skills to be an active, value-added sparring partner for our clients

- You speak German and English to be able to communicate with the German customers but also with the team in Copenhagen and Aarhus

This is what you can look forward to

- A high degree of independence in your area of responsibility

- Part of the "start-up" team in Germany with exciting development opportunities

- An attractive remuneration package incl. performance based bonus

- To join a team of young, professional, highly motivated and energetic colleagues in Germany and Denmark

- A professional, informal and international environment based on an open Danish working culture
